Francis Okagbue

306-361-4666 | okagbueonyeka20@gmail.com | Calgary, Canada

Summary

IT and cybersecurity professional with 4+ years of hands-on experience in endpoint security, network defense, VPN administration and incident response. Holds 8 industry certifications – including AWS Security Specialty, Security+, CASP+ and Microsoft Cybersecurity Architect Expert backed by extensive home lab practice spanning threat detection, SIEM configuration, hardened Linux deployments, and security automation. Passionate about translating security knowledge into practical, resilient infrastructure.

TECHNOLOGY PROFICIENCIES

Ticketing:	Jira, Freshdesk, ServiceNow
Software:	Active Directory, Microsoft 365 (Office 365), Microsoft Entra ID (Azure AD)
Platforms:	Windows, MacOS, Android, iOS
Virtualization:	Proxmox, VirtualBox, VMware
Networking/Security:	FortiGate, Cisco routing/switching, Mikrotik
Logging/Monitoring:	Forti Analyzer, FortiClient, Splunk, AWS CloudWatch
Frameworks:	NIST CSF, CIS Controls, PCI DSS

PROFESSIONAL EXPERIENCE

Long View Systems June 2026 – Present
System Consultant *Calgary, AB*

- Deploy, enroll and manage Windows endpoints with Microsoft Intune and Autopilot, enforcing compliance policies, BitLocker encryption, and security baselines across the client fleet
- Administer user identities and access in Active Directory and Microsoft Entra ID, including account provisioning, group membership, MFA enrollment, password and lockout resolution
- Troubleshoot Microsoft 365 services (Outlook, Exchange Online, Teams, OneDrive, SharePoint) and Azure Virtual Desktop sessions to restore productivity for end users

- Document resolutions and standard procedures in the client knowledge base and escalate complex incidents to infrastructure and security teams, helping cut repeat tickets and improve first-contact resolution.

Fortinet November 2024 – May 2026

IT Specialist, MIS *Vancouver, BC*

- Configure and administer remote-access VPNs, creating and maintaining VPN security policies, user groups, and access rules for **100+ remote users**, which helped cut recurring connectivity and security issues by 30%
- Implement and manage endpoint security for **500+** Windows and Linux devices, including BitLocker full-disk encryption and hardened Ubuntu images, increasing complaint endpoints from 60 to 95%
- Serve as first line of response for **50-100** security-related tickets per month, handling access problems, VPN/security policy issues, and suspicious activity, while documenting findings, and remediation steps
- Proactively monitored network traffic and endpoint telemetry using FortiClient EMS and Forti Analyzer, identifying and neutralizing anomalous behavior pattern before escalation

Suite Solutions May 2023 – October 2024

IT Junior Analyst *Saskatoon, SK*

- Provided technical support for a wide range of IT-related issues, including hardware malfunctions, software errors, and network connectivity problems, reducing downtime by 25% and maintaining operational efficiency.
- Authored and maintained comprehensive user documentation, significantly reducing IT-related inquiries to the help desk by 45%.
- Monitored and troubleshoot core network and server infrastructure, identifying and fixing bottlenecks early to keep mission-critical systems highly available
- Assisted in configuring firewall rules and network segmentation policies, strengthening the organization's overall security posture.

FRANKDIOWO NIGERIA LIMITED May 2017 – July 2018

Junior Network Analyst *Lagos, Nigeria*

- Monitored, maintained, and troubleshot LAN/WAN infrastructure, resolving connectivity and performance issues at first level and escalating complex incidents to senior engineers to minimize downtime
- Configured and maintained network devices, including switches, routers, and firewalls, while keeping network diagrams, documentation, and hardware inventory accurate and up to date

- Managed a busy support queue of **30-40** tickets per day, balancing walk-ins, calls and remote requests while prioritizing the most urgent issues to meet service targets
- Provided evening and weekend occasional support during outages and planned maintenance, helping reduce downtime and maintain productivity for **100+** users

EDUCATION

University of Saskatchewan — September 2019

Bachelor of Science in Computer Science and a minor in Economics — Saskatoon, SK

- Member, UofS Cyber Security Team
- Active Member of CompTIA and ISC2
- Ranked in the top 5% on TryHackMe (2M+ users) - penetration testing/CTF platform with **2M+** users

CERTIFICATIONS

☐ CompTIA Security+ ☐ CompTIA Project+ ☐ CompTIA CASP+ ☐ CompTIA CYSA+

☐ AWS Certified Security Specialty ☐ Fortinet Network Security Expert: Certified Professional

☐ Microsoft Certified: Cybersecurity Architect Expert ☐ Microsoft Certified: Azure AI Fundamentals

☐ Microsoft Certified: Security Operations Analyst
